LT710

Small Character Inkjet Printer

Printing Performance
1—3 lines (7 X 5 matrix)
1-4 lines (5 X 5 matrix)
Maximum speed = 450m/min@5 X 5

Font matrix
5X5,7X5.9x7,12X9,16X11,19X14,
24X17

Character Height
1-12mm, depending on the font

Printing Distance
According to actual tests, you can choose
between 2mm to 20 mm
Best distance : 10mm

User Interface Available
English

Inkjet character
English, Chinese, Arabic numbers,
Barcode, Serial number. Automatic date,
User—defined characters, Edit Characters
and Logo

Extra memory
SD Card

Memory space
68 messages +50 pattern/Logo

Chassis
IP55 , stainless steel + plastic

Nozzle
Nozzle orifice 60 microns

Nozzle throat
Super soft. length 3m
Printing direction
360' all-round printing

Ink/Solvent
Ink cartridge - 750 ml
Make-up cartridge - 750 ml

Temperature/Humidity range
0-45°C
0-95% relative humidity,
nan-condensing

Power
AC100-240V 5O/60Hz
60VA

Net weight
17KG

Dimension
410K330X445mm

Pixel
26/34 (Drop)

AXIS DRUCKFARBEN -THE PERFECT IDENTIFICATIOSI CREATOR

As AXIS GROUP 's corporate identification and marking platform. AXIS is a focus on continuous inkjet, TTO, laser coding, carton marking equipment provider. The company is relying to Solid technical background since its establishment. We Continue to use innovative technology to help organizations worldwide improve productivity and significantly reduced Cost of ownership. Products and services are applicable to all industries around the world including Food and beverages. pharmaceuticals, cosmetics, automotive, cable, extrusion and electron and Metal.

We at AXIS focused on Market-oriented, innovation, continuous improvement and the pursuit of excellence since the beginning.

The best choice for production-oriented company

AXIS druckfarben

Authorised Distributors

LT710
Small Character Inkjet Printer

NO HIDDEN COST LIKE OTHER

No core replacement

No INK reservoir hours code

No RFID on INK & MAKE UP

The Best Choice for Production Oriented Companies

Lowest Cost Of Ownership and Highest Delivered Value.

LT710
Small Character Inkjet Printer

Axis - Best Productivity with lowest cost of ownership identification manufacturer. We are committed to provide quality service for the identification technology and manufacturing companies worldwide.

Lead tech is the brand that meet the demands of the market due to effective research and development it is suitable for all manufacturing companies in the LT710 inkjet printer (CIJ). It's modern appearance, superior stability, high-quality printing and high utilization rates, effectively on production efficiency improvement and cost reduction.

Super easy to use

Easy to use system operation. Low operator interference required, fast, short training need plug and play ink/solvent conveying system is simple. convenient and efficient. No spillage during pouring to machine. integrated design to simplify replacement of parts and recover rapidly from downtime.
Superior ink performance

Advanced ink provides excellent printing performance, fast drying, high adhesion. ink / solvent and the machine hardware compatibility test shows that it effective prevent premature degradation of hardware. High purity and meet the tiler criteria 100% after batch testing   .

The advanced coting efficiency

Personalized human machine interface and one click auto switch, Messages editing software is easily get editing information. Step by step guide input to avoid error. Different bar code styles to meet the needs of bar codes   .

Small, ultra-quiet

lp55 dust proof industrial design effectively prevent dust from entering the chassis, causing abnormal behavior. Ultra-quiel operation that reduces noise pollution in the workplace. Say goodbye to dull appearance because it's sleek and ergonomic. it's ultra small size meet the need of small space.

Excellent Stabiliy

Automatic calibration function automatically adjust printing parameters according to changes in the actual work environment. without human intervention. No cord board life. Optimized ink system more accurately correct every drop of ink droplet to provide better coding quality. Can still print after long prolonged shutdown

Intelligent cartridge

Intelligent ink cartridge solvent system when inserted a wrong consumables alarm will turn on automatically real fluid level detection.

Optimum use of fluids due to air vent into the cartridge. The high performance ink is specially designed for current application and production environment to provide excellent performance and to ensure that all liquid will be fully utilized with no waste, efficient use and cost savings.

The new nozzle innovation (PRINT HEAD FINE CLEANING SYSTEM)

A new automatic cleaning function effectively reduce the ink deposition inside the nozzle allowing the printer to run longer.

Advanced nozzle technology ensures printing on a vanety of materials of different quality coding. Molded printhead still replaceable spears separately.

Excellent print quality

Ink integrated control system to meet a variety of work environments, precise font print speeds. Modular insertion date and time information to improve coding efficiency and correctness.
